Hiring Manager
THE COLLECTION
Coral Gables, FL

Dear Hiring Manager,

I am writing to apply for the Finance and Insurance Manager position at THE COLLECTION. I have spent thirty-three years running finance offices in South Florida — twenty-eight of them at Bill Seidle Nissan Auto Group, where I have held the finance desk through changes in ownership, management, and market, and eight before that at Brickell Honda. I would like to bring that record to a group that holds itself to a higher standard.

What I would bring to each part of the role as you have described it:

- **Finance and insurance operations.** Thirty-three years structuring finance and lease deals — calculating terms, taxes, rates, and fees; presenting warranties, GAP, and protection plans; and securing approvals through lender relationships built across banks, captives, and credit unions over decades, for clients at every point on the credit spectrum and on vehicles from entry models to high-line units. Six-time winner of the Nissan Award of Excellence, and Platinum level in Nissan Security Plus products every year since 2005. Those are the manufacturer's figures on my performance, not my own.
- **Customer experience.** My market is one where whether a client comes back — and whether their family does — turns on whether they trusted the person in the finance office. I supported a fifteen-person sales team and trained them on the hand-off into my office so that transition never cost us a client's confidence. Transparency is not a standard I would be adjusting to; it is much of why I have been kept and promoted across twenty-eight years of changing ownership and management, and why my clients have sent me their families.
- **Compliance and reporting.** Truth in Lending, the Fair Credit Reporting Act and the Red Flags Rule, OFAC — thousands of funded deals, clean documentation, and a clean record. I have handled client credit information under those obligations every working day for three decades, and I have accounted for my penetration and performance figures to both dealership management and a manufacturer that follows its numbers closely.
- **Ready on day one.** I work in CDK, DealerTrack, and Reynolds & Reynolds daily, so there is no learning curve on your systems. I am available for evenings, weekends, holidays, and off-site events.

Three decades in this market have taught me what a finance office is actually judged on: whether the deal funds, whether it is clean, and whether the client leaves feeling they were dealt with straight. THE COLLECTION has built its reputation on that last part, and it is the part I have spent my career on. I would welcome the chance to sit down and go through my numbers with you.

Sincerely,

Santos Echevarria
