Hiring Manager
THE COLLECTION
Coral Gables, FL

Dear Hiring Manager,

I'd like to apply for the Finance and Insurance Manager position at THE COLLECTION.

I've spent thirty years running finance offices in South Florida — twenty-eight of them at Bill Seidle's Nissan, where I've held the finance desk through changes in ownership, management, and market, and two before that at Brickell Honda. I'd like to bring that record somewhere that holds itself to a higher standard.

Here's what I'd bring to each part of the role as you've laid it out:

- **Finance and insurance operations.** Thirty years of structuring finance and lease deals — working the terms, taxes, rates, and fees; presenting warranties, GAP, and protection plans; and getting approvals through lender relationships I've built up over decades with banks, captives, and credit unions. Clients at every point on the credit spectrum, on everything from entry models to high-line units. I'm a six-time winner of the Nissan Award of Excellence and I've hit Platinum in Nissan Security Plus every year since 2005 — those are the manufacturer's numbers on my work, not mine.
- **Client experience.** I work in a market where whether a client comes back — and whether their family does — comes down to whether they trusted the person in the finance office. I've supported a fifteen-person sales team and trained them on the hand-off into my office so that moment never cost us a client's confidence. Being straight with people isn't a standard I'd be adjusting to; it's most of why I've lasted twenty-eight years in one store and why my clients have sent me their families.
- **Compliance and reporting.** Truth in Lending, the Fair Credit Reporting Act and the Red Flags Rule, OFAC — thousands of funded deals, clean paperwork, clean record. I've handled client credit information under those rules every working day for three decades, and I've answered for my penetration and performance numbers to both dealership management and a manufacturer that watches them closely.
- **Ready on day one.** I'm in CDK, DealerTrack, and Reynolds & Reynolds daily, so there's no learning curve on your systems. And I'm glad to work evenings, weekends, holidays, and your off-site events — that's the business.

Thirty years in this market have taught me what a finance office actually gets judged on: whether the deal funds, whether it's clean, and whether the client walks out feeling they were dealt with straight. THE COLLECTION built its name on that last part, and it's the part I've spent my career on. I'd welcome the chance to sit down and go through my numbers with you.

Sincerely,

Santos Echevarria
