PROFESSIONAL EXPERIENCE

Finance Manager — Bill Seidle Nissan Auto Group

Ran the finance office for a 15-person sales operation

- Owned the F&I function for a high-volume Nissan store across three decades of market cycles, lender-appetite shifts, and DMS platform changes.
- Set and executed F&I product strategy — extended warranties, GAP, service contracts — sustaining product penetration and PVR at levels recognized annually by the manufacturer.
- Managed the dealership's lender portfolio: cultivated and maintained relationships across multiple banks, captives, and credit unions to hold approval rates and buy rates across the full credit spectrum, from prime through subprime.
- Owned compliance for the department — Truth in Lending, the Fair Credit Reporting Act, Red Flags Rule, OFAC — across thousands of funded deals with a clean record.
- Built the sales floor's finance capability: trained and mentored sales staff on deal structure, disclosure requirements, and finance-office hand-off, protecting both CSI and gross.
- Ran daily operations in CDK, DealerTrack, and Reynolds & Reynolds — deal files, credit submission, contract processing, and funding follow-up.
